---

Scott -- just left you a detailed voice mail. Hope I used the right number.

In brief, I think we're on the right track after several conversations between counsel after our conversation.

We'll be sending you (probably from Jeanne Briskin) an e-mail on the ORD access issues. I suspect it will be tomorrow and we're all optimistic that we can reach closure quickly and get to work.

I'll be in Boston tomorrow but call my cell (202-716-0118) if we need to talk.

Robert M. Sussman

To: Bob Sussman  
Subject: Project Idea For Your Consideration

For the past 18 months Range has been working with URS on an air monitoring and modeling project. To date, Range has committed approximately \$600,000 to the effort as well as a great deal of technical consultation and data. My thought is that this project could serve as the nucleus for an expanded project with the EPA and perhaps could include PADEP. This project is intended to analyze an issue of critical importance to the industry and the nation and has the potential to be very impactful. In addition, it is consistent with the recommendations made by the DOE Panel last year. In the hope you might be interested in this sort of joint effort, I have asked URS to define an expanded project scope for our mutual consideration. I look forward to your thoughts on the matter.

Subject: Site Visit

---

Hi Scott -- I'm wondering if Range might have some interest in hosting a site visit in the Marcellus Shale that a group in the Executive Office of the President is interested in attending? Perhaps we can chat about this tomorrow.

Robert M. Sussman  
Senior Policy Counsel to the Administrator
